

Key Features

- Rubber resin tape
- Suitable for LSE twin flute material
- Designed for short term exterior use
- Max operating temperature 60°
- Short UV resistance

Stykra 400 rubber resin

Model No: **DS400**

The Stykra 400 is a rubber resin tape designed for short term bonding of twin flute materials for display purposes. The 1mm thick rubber resin tape is an aggressive adhesive that bonds well to LSE materials which makes it ideal for creating POS and retail displays . The Stykra 400 is rated for externally for up to 3 months.

Construction

- Solid rubber resin adhesive

Minimum Service Temperature	°C	-10	-

Stykra 400 must be stored in its original packaging in a clean and dry environment with a shelf life of 12 months.

Unless stated otherwise all values given are average. All of the tapes in our range should be thoroughly tested on the substrates in the particular application they are intended for. Stykra will not be responsible for the product failure unless full testing has been completed. The customer has to decide on the tapes suitability for the intended purpose.
