

Key Features

- Solvent acrylic polyester tape
- Suitable for PVC banner hemming
- Quick release MOPP liner
- Operating temperatures of -30°C to +90°C
- Weather & UV resistant

Stykra 500 polyester tape

Model No: **DS500**

The Stykra 500 is a high performance polyester tape with a solvent acrylic adhesive. Suitable for hemming PVC banners prior to the application of self-piercing eyelets. The Stykra 500 is suitable for outdoor use on large format banners and aids in the reinforcing of banner material. The quick release red liner allows for rapid application time to help increase production efficiencies.

Construction

- Polyester carrier
- Solvent acrylic adhesive

Item	Unit	Spec	Test Method
Total Thickness	mm	0.23	-
Adhesive Strength	N/25mm	40N after 24 hrs	FINAT TM-1 (stainless steel)
Sheer Strength	h	≥400	FINAT TM-8 (stainless steel @ 23 °C)
Holding power for temperature resistance 60 °C	h	>24	PSTC-7 (25x25mm, 0.5kg/1.1lbs)
Initial Tack (A/B Side)	cm	<5	PSTC-6 (#14 BALL)
Temperature Resistance	°C	+90	-
Low Temp. Resistance	°C	-30	-

Stykra 300 must be stored in its original packaging in a clean and dry environment with a shelf life of 12 months.

Unless stated otherwise all values given are average. All of the tapes in our range should be thoroughly tested on the substrates in the particular application they are intended for. Stykra will not be responsible for the product failure unless full testing has been completed. The customer has to decide on the tapes suitability for the intended purpose.
